================================================================================
Project Code: NBAN0001
Project Name: Timmon Wallis, NuclearBan.US
Prepared for: Nuclear Ban Proposal Survey
Interviews: 400
Field Period:  April 27, 2022 — May 02, 2022
Project Manager: Melissa Moore, melissa.moore@yougov.com
================================================================================
```

YouGov interviewed 431 respondents who were then matched down to a
sample of 400 to produce the final dataset. The respondents were
matched to a sampling frame on gender, age, race, and education. The
frame was constructed by stratified sampling from the full 2019 American
Community Survey (ACS) 1-year sample with selection within strata by weighted
sampling with replacements (using the person weights on the public use
file).

The matched cases were weighted to the sampling frame using propensity
scores. The matched cases and the frame were combined and a logistic
regression was estimated for inclusion in the frame. The propensity
score function included age, gender, race/ethnicity, years of education,
and region. The propensity scores were grouped into deciles of the
estimated propensity score in the frame and post-stratified according to
these deciles.

The weights were then post-stratified on 2016 and 2020 Presidential vote
choice, and a four-way stratification of gender, age (4-categories),
race (4-categories), and education (4-categories), to produce the final weight.
